

## ENTRY AND EXAMINATION OF PREMISES

**§ 19.86 Furnishing facilities and assistance.**

On the demand of any appropriate TTB officer or agent, the proprietor shall furnish the necessary facilities and assistance to enable the officer or agent to gauge the spirits in any container or to examine any apparatus, equipment, containers, or materials on the distilled spirits plant premises. The proprietor shall also, on demand of an appropriate TTB officer or agent, open all doors, and open for examination all containers on the plant premises. The proprietor shall, on request of an appropriate TTB officer, furnish the exact locations (including the number of containers at each location) of all packages and similar portable approved containers within a given lot, and locations (i.e., buildings, rooms or areas) where spirits in cases are stored.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1357, as amended (26 U.S.C. 5203); sec. 806, Pub. L. 96-39, 93 Stat. 279 (26 U.S.C. 5202))

GAUGING OF SPIRITS, WINES OR  
ALCOHOLIC FLAVORING MATERIALS**§ 19.91 Gauging.**

(a) *Gauging of spirits and wine.* Gauges shall be made by the proprietor. However, the appropriate TTB officer may require that such gauges be made in the presence of and be verified by an appropriate TTB officer. Gauges of spirits, denatured spirits, or wine shall be made in accordance with 27 CFR part 30 and as provided in this part. However, the gauge for wine that is to be transferred to a bonded wine cellar shall be recorded by kind and percent of alcohol by volume. When bulk spirits, denatured spirits, or wines are to be volumetrically measured, the measurement shall be in a tank or bulk conveyance for which a calibration chart is provided, by a meter approved under § 19.277, or, when approved by the appropriate TTB officer, by other devices or methods. Calibration charts shall be certified as accurate by persons qualified to calibrate tanks or bulk conveyances. When spirits in bottles are gauged, the gauge may be established on the basis of legible case markings and label information, if (1) the bottles

are full, and (2) there is no evidence that the bottles have been tampered with.

(b) *Gauging of alcoholic flavoring materials.* Each alcoholic flavoring material shall be gauged when dumped, except that when received from a manufacturer in a closed nonporous bottle, can, or package such material may be gauged by using the proof derived from the container label or a related statement of the proof from the manufacturer. When proof is determined from a label or manufacturer's statement, the proprietor shall periodically test a sufficient number of samples of the alcoholic flavoring material to verify the accuracy of the proof so determined and shall record the results of those tests on the gauge record. The appropriate TTB officer may require that all alcoholic flavoring materials be gauged by the methods provided in 27 CFR part 30.

(Sec. 201, Pub. L. 85-859, 72 Stat. 1358, as amended, 1396, as amended (26 U.S.C. 5204, 5559))

**§ 19.92 When gauges are required.**

(a) *Initial proof.* Except for a gauge required by § 19.383 or § 19.517 or in any case where the proof changes as a result of a storage or processing operation, the initial determination of proof for distilled spirits, wine, or eligible flavors may be used whenever a subsequent gauge is required by this part to be made at the same plant.

(b) *Required gauges.* Spirits, wine and alcoholic flavoring materials shall be gauged whenever required by this part. Such gauges include:

- (1) Entered for deposit,
- (2) Filled into packages from storage tanks,
- (3) Transferred or received in bond,
- (4) Transferred between operational accounts,
- (5) Mixed in the manufacture of a distilled spirits product,
- (6) Reduced in proof prior to commencement of bottling,
- (7) Destroyed,
- (8) Removed or withdrawn from bond,
- (9) Returned to bond, or
